

DANIEL CRUZ

Odoo ERP Developer · AI-Assisted Full-Stack Developer · Software Support Specialist

+63 920 291 1355 • danielzurc08@gmail.com • Taytay, Rizal, Philippines • [LinkedIn](#) • [Portfolio](#) ↗

PROFESSIONAL SUMMARY

IT professional with over a year of hands-on experience delivering software support and custom ERP solutions for business clients. Specializes in Odoo ERP customization, backend API development with FastAPI, and mobile development with Flutter, paired with an AI-assisted development workflow that accelerates delivery without sacrificing code quality. Independently owns system architecture, API integration, and end-to-end deployment. Backed by a strong networking and hardware foundation, and now available as a freelance developer for ERP customization, AI-assisted system development, API integration, and IT support projects. Portfolio and project samples available at dancruz.netlify.app.

CORE SKILLS

- **AI-Assisted Development:** Full-stack application development using AI coding tools (Claude, Claude Code) for rapid prototyping and code generation, with independent ownership of architecture, API design, and system integration
- **ERP Development:** Odoo 19 customization and configuration, custom module development, workflow automation
- **API Integration:** Designing and connecting REST APIs across front-end, back-end, and third-party services; managing authentication and data flow
- **Backend / API Development:** FastAPI (Python) — REST API design and development
- **Mobile App Development:** Flutter (Dart) — cross-platform mobile applications
- **Web App Deployment & Hosting:** Vercel, Netlify, VPS hosting — deploying and hosting front-end, full-stack, and server-based web applications
- **Server Administration:** Ubuntu (Linux) server setup and management, command-line/SSH administration
- **Programming Languages:** Python, VB.NET
- **Web & Scripting:** PHP, HTML, CSS
- **Database Management:** MySQL, PostgreSQL — schema design, queries, basic administration
- **Tools & Platforms:** XAMPP, Visual Studio, Visual Studio Code, Claude Code, Git, DBeaver, MySQL Workbench, Microsoft Office
- **Networking & Hardware:** LAN/WAN setup, router/switch configuration, cable crimping, IP configuration, troubleshooting
- **Systems & Security:** CCTV installation and configuration (RG6 coaxial cable, DVR systems)

NETWORKING & NOC-RELEVANT EXPERIENCE

- Provided on-site network and hardware support, configuring routers/switches and resolving connectivity issues to minimize downtime for business operations.
- Installed and configured CCTV surveillance and DVR systems, strengthening organizational security infrastructure.
- Built foundational networking and infrastructure-security knowledge through Cisco Networking Basics, Cisco Computer Hardware Basics, and the OPSWAT ICIP certification.

WORK EXPERIENCE

Software Support Specialist — Barcotech Philippines Inc. Aug 2025 – Present

- Diagnose and resolve software issues across client systems, minimizing downtime and maintaining smooth operations.
- Design and deploy custom software solutions tailored to each client's business requirements, using an AI-assisted workflow to build both front-end and back-end components.
- Independently plan system architecture and manage API integration, connecting AI-generated code to external services and client systems to deliver fully functional applications.
- Customize and extend Odoo ERP (v19) through module development and configuration; designed and built a custom Fixed Asset Management module enabling clients to track, depreciate, and manage company assets within their ERP system.

- Deploy and host web applications and systems across Vercel, Netlify, and Ubuntu-based VPS environments, managing server setup via command-line/SSH as part of end-to-end delivery.

IT Support Intern — *Seven Dragons Food Galore Inc.* Jan 2025 – Apr 2025

- Provided hands-on technical support across a large fleet of desktop and laptop systems, resolving hardware and software issues.
- Diagnosed and resolved internet connectivity issues to maintain seamless business operations.
- Maintained and repaired printers to ensure reliable document handling and output.
- Installed and configured CCTV systems using RG6 coaxial cable, strengthening the organization's security infrastructure.

Waiter — *Priva Club, Cainta* 2023 – 2025

- Delivered prompt, friendly customer service in a fast-paced environment, ensuring a positive guest experience.
- Accurately processed orders and provided recommendations on menu items and drinks.

EDUCATION

Bachelor of Science in Information Technology

University of Rizal System – Binangonan | 2021 – 2025
